About CDBF

Cody Dieruf

Cystic Fibrosis (CF) is a life threatening genetic disease that affects the lives of the children and adults afflicted by it every day.

The Cody Dieruf Benefit Foundation enables the families to keep up the fight. Through the Foundation, CF families get to know each other. This interaction mends hearts and allows them to lean on each other for encouragement and support. The Foundation strives to grow these relationships and provides families with support and encouragement.

The Foundation was formed in 2005 by the Dieruf family after they lost their daughter Cody at age 23 to Cystic Fibrosis. The Dierufs have lived with the disease. They have walked the shoes of each family. They know the pain, the hurt, the tears, the triumphs of Cystic Fibrosis. The CDBF family signifies hope. Turning their own loss from a tragedy to triumph, the Dieruf's demonstrates the good that can come out of Cystic Fibrosis by fulfilling the Foundation's mission to provide financial and emotional support to afflicted local families and raising awareness of CF.
