Support The Cody Dieruf Benefit Foundation for Cystic Fibrosis

A Foundation of Hope

"I have worn the medal of victory after several triumphs in physical battle"

-Cody Dieruf

"Cystic Fibrosis is about Living not Dying"

-Cody Dieruf

The Cody Dieruf Benefit Foundation, a non profit organization, was established in honor of Cody Dieruf, who died from Cystic Fibrosis on April 28, 2005 at the age of 23. The Foundation carries on the legacy of Cody's life and helps other families in Montana suffering from this terminal illness. The Foundation strives to offer emotional support and hope to our families, to provide needed financial assistance, and to offer educational and cultural opportunities to children and young adults living with Cystic Fibrosis.

The Cody Dieruf Benefit Foundation is a 501(c)(3) non-profit organization incorporated in March 2006. Tax ID# 20-4498266

What is Cystic Fibrosis?

Cystic Fibrosis is a chronic, progressive, fatal, inherited disease which primarily affects the respiratory and digestive systems. It causes the body to develop thick sticky mucus which clogs the lungs and airway passages. This leads to multiple infections and recurrent pneumonia. These repeated lung infections cause scarring of the lungs which causes permanent damage to the respiratory system. The mucus also blocks the pancreas which stops the digestive enzymes from reaching the intestines, where it is required to digest foods, causing malnutrition and poor growth. Children and young adults with Cystic Fibrosis must adhere to strict compliancy with routine medicine and therapy routines to maintain their health. Additionally, exercise should be an integral part of the life of an individual with Cystic Fibrosis.
